How to Order from Fortuna PPS

Prices are listed on our Fortuna PPS Order Form. Please reach out to us via phone or email so that we may assist you with your orders.

The image shows a scanned copy of the Fortuna PPS Order Form. At the top left is the company logo with the word "FORTUNA" and a globe icon. To its right are the NYS DOBIE number (181748), CA DOBIE number (1788678), CADE (76105), CMAS (IT) (3-15-70-3174A), and ITMSA (Tier 2) (5137952-098). The form is titled "ORDER FORM" in bold capital letters. It has two main sections: "BILL TO" and "SHIP TO", both with placeholder fields for company name, street address, city, state, zip, name, and phone. There is also a section for "DATE" and "P.O. #".

FACE MASKS

10013-001-2000 3PLY Disposable Face Mask

A 3-Ply face mask, which is a non-woven type, suitable for breathing and protection in daily life. The non-woven and 3-layer filter cloths are folded, heat-sealed, cut and spot-welded elastic bands.

Size: Fluid Resistance, mmHg 80, BFE >95%, PFE, @0.1 micron >95%,
DELTA P, mm H2O/cm² <4.0, FLAME SPREAD Class 1

10014-001-3500 M10 Respirator

It is a purifying air foldable respirator with nasal clip and double elastic. It provides a perfect fit and protection against dusts and mists without presence of oil. It contains high-tech electorstatic filtering medium designed to restrain oil-free particles. Top piece helps provide a custom fit and secure seal. It also helps reduce goggle fogging.

Complies with NOM-116-STPS-2009, NIOSH CFR-84 (USA) and FFP1 (Europe) on N95 Parameters

Size: Latex-free; Staple-free cross straps; Soft foam nose cushion; Filter type: N95
Type: Non-oil; 95% filtration

10012-095-0050 KN95 Face Mask

The KN95 face mask possesses national protection level, which can effectively protect the external dust and bacteria. It reduces the risk of inhalation of harmful gases such as odors, pollen, smoke, dust and other harmful particles for hospitals, schools, travel, painting and outdoor activities. It is soft, flexible, breathable and ideal for sensitive skin.

Size: Approved by CDC and FDA; Non-oily; 4-layer filtration system, nano-layer filtration;
BFE > 97%

10012-195-1000 N95 Face Mask /N95 Respirator

The N95 respirators are a 5-layer respiratory protective device designed to achieve a very close facial fit and very efficient filtration of airborne particles. The KN95 respirator blocks at least 95% of very small (0.3 microns) test particles.

FACE MASKS

10013-002-3000

3PLY Disposable Surgical Mask

A 3-layer filter mask for clinical medical staff to use during non-invasive operation. It covers the mouth, nose and jaw to provide a physical barrier, which prevents direct penetration of pathogenic microorganisms, body fluids, and particulate matter. It is made of high quality non-woven fiber fabric, which is soft and breathable.

10013-021-2500

3PLY Level 2 Mask

Made of quality non-woven fiber fabric, this 3-layer filter mask is comfortable to wear, soft and breathable. It provides effective protection for blocking dust, air pollution and droplets.

10012-095-1000

KN95 Face Mask

The KN95 face mask possesses national protection level, which can effectively protect the external dust and bacteria. It reduces the risk of inhalation of harmful gases such as odors, pollen, smoke, dust and other harmful particles for hospitals, schools, travel, painting and outdoor activities. It is soft, flexible, breathable and ideal for sensitive skin.

10015-010-0100

Reusable Cotton Mask (Adult)

This mask is made of 100% cotton, which has 2 layers designed to be breathable. It is washable and can be used multiple times. However, this mask does not offer protection against toxic gases.

Size: 100% cotton; Elastic ear-band; Washable & Reusable 2-Layer Masks

FACE SHIELDS

10040-001-0100

Infectious Disease Control Face Shield

This face shield is FDA certified and is made of anti-fog polyethylene terephthalate (PET) shield. It has a flexible, hypoallergenic foam band for added comfort and protects against airborne contaminants.

10040-001-0320

Infectious Disease Control Face Shield

This face shield is FDA certified and is made of anti-fog polyethylene terephthalate (PET) shield. It has a flexible, hypoallergenic foam band for added comfort and protects against airborne contaminants.

10040-002-0500

Face Shield

This face shield is made of 100% anti-fog polyethylene terephthalate (PET) shield.

10040-002-0100

Face Shield

This face shield is made of 100% anti-fog polyethylene terephthalate (PET) shield.

GLOVES

10030-002-1100

Nitrile, Disposable Gloves

These nitrile gloves are powder-free and the perfect compromise between latex and vinyl. It is made from an allergy safe compound that feels a lot like latex but it's much stronger, costs less and is more comfortable to wear. Nitrile is perfect for demanding applications but not for medical use.

10030-003-0300

Nitrile, Non-Surgical

These nitrile gloves are powder-free and the perfect compromise between latex and vinyl. It is made from an allergy safe compound that feels a lot like latex but it's much stronger, costs less and is more comfortable to wear. Nitrile is perfect for demanding applications but not for medical use.

10031-001-0300

PVC Disposable Gloves

These gloves are made from raw synthetic materials that offer good abrasion resistance. These gloves protect against oil and have breathable liners to provide comfort and coolness when worn.

10032-001-0300

Latex Disposable Gloves

These latex gloves are powder-free and are made of natural rubber lates & micro-textured for added grip. These gloves are a great way to keep your staffs in compliance with health code regulations at all times. However, these are not ideal for medical purposes. These gloves are chlorinated examination gloves and conform to ASTM D3578-05 and EN 455 part 1, 2 & 3 standards.
